

# STAINED GLASS WORK AT FIRST PRESBYTERIAN CHURCH, RIVER FOREST, IL

I'm writing you this letter to express my complete and unabashed appreciation of the superb workmanship your crew provided to our church.

The biggest impression when I returned to work last Monday was the extent of the work performed, the quality of the job nearly completed and the overall wonderful impression the stained glass windows exuded. The added fact that they are now safely covered and protected with safety glass with almost invisible framing is especially pleasing.
